SECOND HAND AND DIGITAL REACTIVATION 2026

Publishers are gradually reducing the availability of reactivation codes according to Campion. For the year ahead the following costs were provided, please see below the summary for 2026.

Cambridge University Press	Digital reactivation may vary. Mathematics texts have a digital reactivation charge from \$29.95 for 12 months. This applies to, for example, their Essential Mathematics series, their Cambridge Senior Mathematics series, as well as their other mathematics texts.
Nelson / Cengage Learning	Nelson textbooks include individual access codes for existing titles. New reactivation costs range from \$19.95 – \$22.95.
Jacaranda	All Jacaranda texts have a \$20 - \$50.00 renewal charge to provide the full access to LearnON. The LITE version of an eBookPLUS provides access to the digital version of the text online but does not provide access to any downloadable digital resources, videos, interactive content or interactive questions. For some VCE titles the reactivation code has been discontinued and the full digital resource has been reduced to \$50.
Matilda Education	Reactivation costs vary from \$27.50 to \$29.50.
Oxford University Press	Digital reactivation of Oxford textbooks from \$24.95.
Pearson (including Heinemann)	Pearson have a reactivation charge for most of their titles. The reactivation charge for all VCE titles will be from \$25.00.

Please note that the Campion MyConnect2 platform doesn't support reactivation codes.

If the students have a reactivation code, they can activate it via the publisher directly e.g. Cambridge/Oxford.
